

**Certificate of Medical Necessity:
Continuous Glucose Monitoring Supplies (CGM) Medicaid Letter**

Date	09/10/2023
Patient Name	Ms. Jane Doe
Date of Birth	05/10/1967

We are seeking to continue to better manage this patient's diabetes by using:

- ☐ FreeStyle Libre (14-day or Libre 2) continuous glucose monitor system
- ☐ DexCom G6 continuous glucose monitor system
- ☐ Eversense continuous glucose monitor system
- ☐ Medtronic Guardian continuous glucose monitor system

This patient:

- Self-monitors blood glucose a minimum of 3 times per day
- Uses an insulin pump or MDI a minimum of 3 times per day
- Requires frequent adjustment of insulin dosage
- Has received education specific to the use of therapeutic CGM
- Had an in-person or telehealth visit within the last 6 months with the treating clinician to evaluate diabetes control
- Provider has verified the patient meets the manufacturer's recommendations for appropriate age range, testing and calibration requirements, etc.
- Or patient has otherwise qualifying circumstances or otherwise deemed medically necessary

The patient and I are requesting these continuous glucose monitoring supplies be approved to continue to help improve their glycemia and thus their long-term quality of life as someone diagnosed with diabetes.
